Mr. Wood
Curator Numismatic Society.

Dear Mr Wood.

Mr. Roe may have spoken to you of a small collection of coins which he saw in the cat logue.

He said you might consider looking at. I

And advise me regarding
it. He thought I might
bring some of the European
Silver & gold and South
Americans, & North Americans
under quarters. By
South Americans does
that mean abo the early
Spanish Columnarios of the
18th century? However I

will post you a copy of the
Cat logue if you wish.

I had hoped to come
sooner but it was im-
possible.

The order in 1880 cat logue
is according to specie
value I copied it.

It was inscribed by the

Step-sister she also
has about two hundred
& more coins which
am now collecting -
Could you see me
some day after September
30th? I shall greatly
appreciate it.

Yours very truly
Edith Barclay

Dear Miss Barclay:

Mr. Noe spoke to me about you and said that you would write again. I would be glad to see you any time at your convenience. The best time to be sure of catching me is either Monday, Tuesday or Wednesday of any week.

It is very hard to advise any one concerning coins from a catalogue, as condition and general appearance of the pieces tell the story. I would think it preferable to bring on as many of the coins as you can. I would be glad to see what you have from North and South America which includes the earlier pieces under Spanish rule. It would, however, be well to send on the catalogue in advance so that I can get some idea of what the collection contains.

Very truly yours,

Curator
